DETAILED ACTION

Claim Objections

1. Claims 9 and 15 are objected to because of the following informalities: "a substrate" on line 6 should be changed to –the substrate— or –said substrate--. If it is different to the "a substrate" recited on line 2 (for claim 9), on line 1 (for claim 15), the applicant should show it on the drawing and describe it in the specification.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-6, 9-12 and 15-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Bahl [US 6,072,160]

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in

the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Regarding claim 1, Bahl discloses a monolithic member [38], a plurality of lamp receptacles [58], reflector cavities [159] formed in the monolithic member [38] and a lamp [39] (figures 1 and 2, column 4 lines 48-67, column 5 lines 5-60).

Regarding claims 2, 10 and 16, Bahl discloses a plurality of coolant passages [47, 48] (figure 1, column 5, lines 23-27).

Regarding claim 3, Bahl discloses brass, aluminum and other metal (column 5, line 13).

Regarding claims 4, 5, 11 and 17, Bahl discloses gold reflectors [159] (column 5, line 48).

Regarding claims 6, 12 and 18, Bahl discloses lead wires [163] and a lamp base [54] (figure 2, column 5, lines 53-60).

Regarding claims 9 and 15, Bahl discloses a semiconductor processing chamber [20] having a support [82, 83], a substrate [81], a monolithic member [38], a plurality of lamp receptacles [58], reflector cavities [159] formed in the monolithic member [38] and a lamp [39] (figures 1 and 2, column 1 lines 48-59, column 4 lines 48-67, column 5 lines 5-60).

Allowable Subject Matter

4. Claims 7, 8, 13, 14 and 19-31 are allowed.

The following is an examiner's statement of reasons for allowance:

The reasons for allowance have been stated in the previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

5. Applicant's arguments filed 12/22/2003 have been fully considered but they are not persuasive. The term "monolith", which the applicant heavily relies on, just means a massive structure. See Webster's Tenth Edition Collegiate Dictionary; p. 753. Bahl discloses a monolithic member [38] (a radiant energy assembly, figure 1).

Furthermore, the applicant's arguments shows Bahl reference's structure, and explains what advantageous benefits of the applicant's invention; but the applicant does not clearly point out how the language of the claims patentably distinguishes them from the references.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

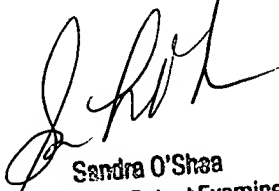

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
